Mr. McLambkin:—Grass! No, Why?

The Meenister:—Then gang awa' hamo, ye gowerl, for ye're no' fit company for either man or beast.—*fin.*

**O. FIELD.**

## A TWO MILLION DOLLAR FIRE.

### Minneapolis Receives an Immersion of Fire on Sunday.

MINNEAPOLIS, Minn., Aug. 13.—Two million dollars worth of property went up in flames this afternoon. Over 200 houses are burned and at least 1,500 persons are rendered homeless. This is the record made by the destroying element in the short space of two hours.

The fire was first noticed about 1.30 p. m., in J. B. Clark & Co's box factory on the south end of Nicolett Island, at the head of St. Anthony's Falls. A general alarm brought the entire fire force of the city to the scene. A strong gale was blowing from the south and in an incredibly short time the flames spread to adjoining houses and soon a score of these were ablaze. Where the fire started is still a mystery. It took but a few minutes to reduce Clark's box factory to ashes.

GREAT EMBERS FLEW THROUGH THE AIR and started fires many blocks beyond the places where the firemen were at work. The flames were simply irresistible. Brick and stone structures fell as easily victims as the merest shells. Beyond the lumber yard were the two mills belonging to E. W. Backus & Co. Of these nothing remains except the smokestacks and a mass of twisted machinery and charred timbers. J. B. Chattenton's post mill went the way of the others as did the sash and door factories of Fulton & Libbey and J. W. Wilcox & Co. At the corner of Marshall street and Thirteenth avenue, northeast, stood the mammoth brewery of the Minneapolis Brewing Company. This, it seemed, must surely go, but at this time,

### THE WIND CHANGED.

and although the brewery was surrounded by wooden buildings, it was saved, and it is the only structure from the river bank to Marshall street, a distance of three blocks, that escaped the fire. While the fire was at its height, a spark carried high in the air alighted on Boom Island, nearly half a mile above the fire on Nicolett Island. This island is occupied as a wood yard by the lumber firm of Nelson, Tenney & Co. No one noticed the spark fall but the

### WHOLE ISLAND WAS SOON ABLAZE.

It was this spark that caused the greatest loss. Quickly jumping across the small stretch of water separating the island from the mainland the flames gained a footing in Nelson, Tenney & Co's lumber yard where there were piled some two million feet of lumber. The fire fairly walked through the yard and into that of E. W. Backus & Co. adjoining. By this time it was impossible to stop it, even had the whole fire department been on hand.

### JUMPED THE RIVER.

About 6 o'clock the fire jumped the river and for some time the west side saw mills district was in danger. Fortunately the flames were extinguished before much damage was done.

At 10 o'clock to-night the east side ruins were still ablaze, but the fire is under control. Hundreds of people are either the recipients of charity or are sleeping in the open air to-night.

### THE LOSS.

It is next to impossible to estimate the loss. The owners of the property themselves in many cases are unable to give any estimates. Nelson, Tenney & Co. lose about 10,000,000 feet of lumber and some wood; Backus & Co. two saw mills and probably a like amount of lumber. Their loss will probably be at least \$250,000. A. G. Wilcox and Co's loss is about \$100,000. Fulton and Libbey's about the same. The bottling works and stables of the Minneapolis Brewing company are burned and the loss will be at least \$300,000. They were well insured. On

small buildings the loss can only be estimated. About 200 were destroyed together with contents. The loss to Clark's box factory is \$50,000; insured. The excitement caused a shock to an old man of 70 years, who suffered with heart disease, and he fell dead.

### The "Soo" Line.

WINNIPEG, Aug. 17.—When the "Soo" line is opened next month the C. P. R. will have a route from the middle states to the Pacific coast about 180 miles shorter than any of the other transcontinental railways, and they expect to be able to make the run between St. Paul and coast points from eighteen to twenty hours quicker than the present schedule time; in addition to advantages of less mileage they will save the fourteen hours delay occasioned at this city by waiting over night to make connections with the St. Paul trains. The "Soo" trains will make close connections at Moose Jaw with the main line trains, so that no time whatever will be lost.

There is not much probability of further cutting in rates to or from coast points; the indications rather point towards a restoration of the old tariffs on account of increased operating expenses in winter. At any rate there will be no cutting on the part of the C. P. R. though they will doubtless meet all reductions that may be made by American lines.

There is one feature of the rate war that is worthy of note: The slashing of tariffs was designed mainly to injure the tourist business of the C. P. R. between the middle states and the coast and the low rates were announced with a great flourish, but, strange to say, the C. P. R. has not only held its own even under considerable disadvantage but is now carrying more tourists than they did at a corresponding period of former years, to and from the territory from which their southern competitors hoped to bar them. Owing to the refusal of the Great Northern to haul the C. P. R. tourist cars between Winnipeg and St. Paul, the latter company are compelled to pay first-class fares to the G. N. or N. P. between the points named, and besides accommodate them in a first-class sleeping coach. The cost of doing this takes more than half of the through fare, but the company are determined to keep right in the swim until their own line to St. Paul is completed, and then they will be on an equal footing with their rivals and will be prepared for anything that comes in the way of rates. "We aren't in the rate cutting business," said a C. P. R. official the other day, "we are simply defending ourselves, and will hold our own until the rate cutters see the folly of their ways."

### Unsuccessful Candidates.

The following is the list of marks obtained by the unsuccessful candidates from the Moose Jaw school, at the recent July Examinations:—

List of pupils who failed to pass the Entrance Examination:	
Ida Battell.....	416
Laura L. Battell.....	451
H. R. Ivor.....	396
A. Langford.....	418
Cecil Langford.....	232
Laura Langford.....	401
Bessie Ostrander.....	442
John I. Rollo.....	289
Willie Sells.....	209
Total number of marks obtainable, 980; number required, 490	
List of the unsuccessful candidates from Standard III to Standard IV:	
Ebel Baird.....	276
Laura Burnett.....	244
Samuel Findlay.....	215
Lizzie Love.....	236
Nelson McBride.....	215
Lizzie Herrier.....	226
John McLean.....	186
Harry Neeland.....	281
Bennie Ostrander.....	258
Winnie Ostrander.....	150
Total number of marks obtainable, 635; number required, 327.	

## OUR TOWN FATHERS.

Minutes of the regular meeting of the Town Council held in the council chamber, on Aug. 14th.

Present: Councillors, Neeland, Hannah, Simington and Fysh.

Owing to the absence of the Mayor the clerk called the meeting to order and requested of the Councillors to elect a chairman, when it was moved and seconded that Mr. Neeland act as chairman.

Minutes of last meeting read and adopted.

Communications and accounts were received as follows:

Communications:—Toronto Globe re cuts and photos.

Accounts were received from:

A. Hitchcock, electric light \$66.85  
H. Battell, salary 25.00  
H. McDougall 2.50  
Winnipeg Free Press, advertising 1.25  
E. A. Baker & Co. 2.35

Fysh—Simington.—That accounts of Free Press, H. Battell, H. McDougall and A. Hitchcock be paid.—Carried.

Hannah—Simington.—That the account of Paul Ostrander, less 75 cents be paid.—Carried.

Hannah—Fysh.—That account of E. A. Baker & Co. for \$2.35, be paid.—Carried.

Communication from the Toronto Globe was laid over.

Simington—Hannah.—That the report of Finance Committee be heard.

### REPORT OF FINANCE COMMITTEE.

Your Finance Committee would beg to recommend that the offer of Messrs. Cruthers & Brock to take the \$5000 of Town Debentures, at 5 per cent. at par, be accepted, they having assured your committee that their expenses in connection with the examination and sale of the debentures will not exceed \$55. We would also recommend that Messrs. Cruthers & Brock, be instructed to get forms of debenture printed at our expense, as included in their letter of August 2nd.

Simington—Hannah.—That the report of the Finance Committee be adopted.—Carried.

### NOTICE.

I hereby give notice that at the next regular meeting of the council I will introduce a By-law to fix the rate of assessment for the municipal and school purposes for the ensuing year.

(sgd.) C. A. W. STUNY.

Simington—Hannah.—That the clerk be instructed to get quotations from Moore & McDonald, of Prince Albert, for two inch plank, by car lot f.o.b., Moose Jaw.—Carried.

Fysh—Simington.—That the chairman of the Fire, Water and Light committee, be authorized to purchase lamps and blinds for Town Hall.—Carried.

The council then adjourned.

## Decision of the Behring Sea Arbitration Handed In On Tuesday.

### CABLE FROM THE PREMIER.

OTTAWA, Aug. 15.—The following cable was received at noon to-day by Bowell from Sir John Thompson: "Paris, Aug. 15.—Bowell, Ottawa, Canada.—Arbitration concluded and award delivered at noon. All questions of right are decided in favor of Great Britain. Future sealing prohibited in May, June and July, and fire arms are forbidden in Behring Sea. The Indians of the coast are exempted. Tupper and I sailing on the Parisian, Thursday. (Signed) THOMPSON."

### Managers to Daily.

EDMONTON, Aug. 15.—A public meeting held in the town hall last Saturday in connection with the visit of Hon. T. M. Daly, was largely attended. Special efforts to secure a promise of aid for a traffic bridge will be made. A banquet in honor of Mr. Daly's visit was given last night, which was largely attended.

"Not clinging to some ancient saw,  
Not mastered by some modern term,  
Not swift nor slow to change, but firm."

FRIDAY, AUGUST 18, 1893.

## THE CATTLE TRADE.

It is quite evident that the Federal  
Government has it in its power to  
greatly increase the probability of a re-  
moval of the English embargo on Cana-  
dian cattle. In his recent remarks in  
the House, Mr. Gardner, Secretary of  
the Board of Agriculture, intimated  
that he expected the Dominion Govern-  
ment to take steps to establish that  
contagious pleuro-pneumonia does not  
exist in Canada. Everybody in this  
country is convinced that Cana-  
dian herds are entirely free from the  
disease. The presence of such a  
contagious malady could not be  
concealed in this country any more  
than it could be concealed in the  
British Isles, but this would scarcely  
be deemed sufficient as against the re-  
ports of the experts of the department  
who asserted that the tissues of the  
lung examined by them was affected by  
pleuro pneumonia.

In some way or other the freedom of  
this country from the disease must be  
convincingly established. How this is  
to be done is a matter for early deter-  
mination. It has been suggested that  
English veterinarians, in whom the  
Board of Agriculture would have con-  
fidence, should be invited by our Gov-  
ernment to visit Canada, and pursue  
such researches as would be most likely  
to discover the prevalence of the disease  
if it is a fact that it prevails at all. It  
has been suggested, too, that a hand-  
some reward should be offered by the  
Government for the production of an  
animal suffering from the disease. If,  
in spite of these efforts, it was found  
impossible to successfully fasten on  
Canadian cattle the imputation that is  
sought to be fastened on them, Mr.  
Gardner would feel constrained to re-  
move the embargo.

He is more likely to do this be-  
cause of pressure in the House and out-  
side of it. The central Scottish counties  
and the cities of Glasgow, Aberdeen  
and Dundee are concerned that the  
Canadian cattle trade should be con-  
tinued. The meat-consuming public,  
too, will not be disposed to tolerate the  
exclusion of our cattle unless there is  
some real and tangible reason for doing  
so. Let our Government be diligent  
in showing our freedom from disease  
and the embargo will not be long main-  
tained.

## NO MONEY TO MOVE CROPS.

The question of how to move the  
wheat crop of Minnesota and the Dak-  
otas for 1893 is becoming one of great  
seriousness, says a St. Paul paper: Ow-  
ing to the financial stringency, the bor-  
rowing power of the grain men has be-  
come very limited. The country banks  
will not lend, and the money to be had  
is but a mere fraction of what has  
heretofore been used in moving the  
crops. Various plans have been sug-  
gested whereby the effects of the string-  
ency may be obviated as much as pos-  
sible. Any plan that will result in the  
moving of the crops, even though it be  
done very slowly, must be acceptable.  
Such a plan has been proposed and is  
being adopted in some parts of South  
ern Minnesota, and will very probably  
be generally adopted, as it meets with  
much favor in business circles as being  
a practical solution of the question.  
The plan is that the grain men issue  
their checks for grain purchased of the  
farmer payable fifteen days after date,  
which would allow time for the collec-  
tion of drafts against consignments. At  
some points the banks will not advance  
money on drafts against consignments,  
but will only enter such drafts for col-  
lection. The plan makes a division of  
the burden which the farmers cannot  
but admit is fair. Even with this ar-  
rangement the crop must move very  
slowly, and farmers who are obliged to  
sell may find themselves much inconven-  
ienced.

## EDITORIAL NOTES.

There is so much real estate in Win-  
nipeg water at present that the occu-  
pant have decided to abandon the  
metres and sell it per foot frontage.

Five ladies have been sent as of-  
ficial commissioners of education from  
Great Britain to the World's Fair to  
examine the American school exhibits  
and see what features of our system of  
public instruction can be adopted with  
profit in England.

Under the new Criminal Code which  
went into force on July 1st, examining  
magistrates are compelled to hear the  
evidence on both sides of a case before  
committing a prisoner for trial. They  
must also hereafter write depositions  
on one page of the paper only.

Plans are in preparation for a num-  
ber of depot buildings along that por-  
tion of the Soo extension between Moose  
Jaw and the International boundary.  
Large structures will be erected at  
Estevan and Sterling, the latter being  
the principal point between the coal  
fields and the southern juncture with  
the main line. Track-laying is being  
pushed with vigor, and the new route  
will be ready for operation by the end  
of the month.

It is proposed to build a dam about  
80 feet in height across the Moose Jaw  
creek at Moose Jaw, which will give  
water power sufficient to run any num-  
ber of factories, etc., besides giving a  
water supply for the town. It will  
dam the creek back for 20 miles and it  
is calculated will run a 100 horse power  
wheel 300 days in the year, 12 hours a  
day, with only a loss of one foot of  
water in the dam. It will cost about  
\$60,000.—*Western World.*

The hay crop this year if not a very  
heavy one in this part of the territory  
is likely to prove of considerable value  
the indications being that the demand  
is going to be lively throughout, not  
only the Moose Jaw District, but the  
whole of Canada. Farmers will do  
well to put up every pound of hay they  
can rake together. It will mean 8 or  
10 dollars a ton next spring, perhaps  
more, and will, if not very light and  
short, pay better than cutting a very  
poor crop of wheat.

It is worth noticing by comparison  
as extremely favorable to Canadian  
financial institutions that whilst be-  
tween 100 and 200 banks have lately  
suspended in the Western States, four  
only, two of these very small indeed,  
have thus got into trouble recently in  
Canada, viz., the Commercial Bank of  
Manitoba, Meikle's private bank of  
Lachute, Owen & Co.'s small bank at  
Ailsa Craig, Ontario, and J. M. Burke  
& Co.'s bank at Kaslo, which last is

really American and collapsed through  
its connection with larger branches at  
Washington and Idaho.

The Republican protectionists are  
very inconsistent in the strenuous op-  
position they have made to the de-  
mands of the free silver men. If the  
country is to pay one set of capitalists  
more for their goods than they are  
worth why should it not do the same  
with another set?

The silver mine owners, when they  
demand that the country shall pay  
them more for their silver than it is  
worth, in order that they may run  
their mines at a profit and give employ-  
ment to men, are only acting on the  
protectionist theory in its most un-  
adulterated form.

For some reason, more or less  
mysterious, this province has been  
favored during the past month or so  
with the presence of a number of  
gentlemen of leisure, who are, unhap-  
pily, in somewhat straightened circum-  
stances, and who are very much averse  
to doing any sort of work by which  
they might relieve the financial strain.

We are sorry to appear inhospitable,  
but we fear that this is not a good  
country for these visitors, and if, as  
things are now, they do not keep away  
it might profitably be made still more  
uninviting for them. It ought to be  
possible to devise some means of get-  
ting rid of what, after all we are forced  
to term unwelcome visitors.

Probably the finest and largest  
cattle barn in the United States has  
just been destroyed upon ex-Vice-Presi-  
dent Morton's beautiful place at Ellers-  
lie, N. Y. It cost over \$50,000, and a  
hundred immensely valuable Guernsey  
cattle, a number of horses, 3,000 fowl  
and hundreds of tons of hay were de-  
stroyed at the same time. There seems  
to be little doubt that an incendiary  
had been at work. Incidentally the  
value of costly patent devices was il-  
lustrated. It had been arranged so  
that a man standing at the end of the  
building by turning a lever could un-  
fasten every chain in the barn and thus  
let the animals loose. Practically the  
scheme was almost useless.

The aim of all educators, of course,  
should be to gain access to the primary  
schools. Apparently with this idea in  
view some of the officials of the Cana-  
dian Pacific Railway Company in Cali-  
fornia have been laying the foundation  
of a better appreciation of Canada in  
the minds of the rising generation of  
Californians than exists to-day—at least  
in San Francisco. The Canadian  
Pacific Railway is now giving a large  
number of school teachers from the  
Golden State a trip over the bent trans-  
continental line in the world. These  
teachers cannot help absorbing a great  
deal of geographical knowledge in their  
journey between Victoria, B. C., and  
the Atlantic. Their experience it is to  
be hoped will filter through their lea-  
sons into the minds of their pupils when  
the holidays are over.

An expert examiner recently de-  
tected in a single drop of milk that  
had been kept warm two hours before  
cooling no less than 2500 disease  
germs. A New Jersey commission  
that has been studying the question  
expresses the belief that dairying  
methods can be so improved as to re-  
duce infant mortality by at least 50  
per cent. in five years. A large pro-  
portion of deaths among children is due  
to nutritional disorders (during their  
first year, when milk is the exclusive  
diet. If these 2,500 disease germs per  
drop could be driven out of the milk  
we consume it would be worth the while  
of the Immigration authorities of this  
country to look into the matter, as the  
gain in natural increase would help  
largely to offset the exodus.

The Winnipeg Commercial makes a  
good point when it claims that Cana-  
dian newspapers are the best immigra-  
tion agents available for securing new  
arrivals in this country from the  
Mother Land. Having made this state-  
ment, the force of which all will admit  
the Commercial says, "while our news-  
papers are by far the best medium for  
making known the resources of our  
country, and the circulation of our  
journals abroad furnish by far the best

class of immigration literature, it is not  
a wise policy to place such a heavy tax  
upon their circulation abroad as has  
been done by the recent increase in the  
postage rates upon papers mailed to  
the United Kingdom." It is certainly  
an absurdity that a person who takes a  
dollar weekly is called upon to pay  
\$1.04 postage thereon if he desires to  
send it to some relative in Great Bri-  
tain.

The new C.P.R. station at Calgary  
is approaching completion, but the  
one at Regina has been delayed by  
long waits for stone and is little fur-  
ther advanced now than it was two  
months ago.

Class prejudices, and prejudices  
against classes, are sometimes uncon-  
trollable where there is not the slight-  
est reason for their presence. Perhaps  
of all classes of society there is none  
held in more general bad repute than  
the "tramp." But why should this  
condition of public prejudice affect the  
rights of a newspaper representative,  
even when he has undertaken to out-  
trap the tramps by crossing the contin-  
ent on foot? Some of our western  
exchanges bring us the news that our  
representative Mr. Edward Holmes,  
who is walking out to the Pacific coast  
has been many times annoyed by over-  
zealous opponents of the "tramp" class,  
who offer him work and condemn and  
abuse him when he declines it. Now  
a man cannot walk twenty to thirty  
miles per day and conform to the regu-  
lations of a self appointed House of In-  
dustry at night. Our representative  
has not complained of the matter him-  
self; no doubt he enjoys it as a joke  
in its way and a legitimate commen-  
tary on his outward appearance.

When we assert that

## A Picnic On a Farm

In a sequestered, wooded spot, by  
a cooling stream—a very pleasant  
contemplation this for city folk.  
They wonder why it is that the  
farmer does not more frequently go  
picnicking—why he does not get more  
enjoyment out of life. They  
do not realize that the now-days  
farmer finds enjoyment in his work.

## The McCormick Machine of Steel

is one of the modern pleasure-in-  
volving acquisitions of the farmer.  
It is such a handy machine and  
so reliable in its performance that  
the old-time dread of harvest is  
done away with. The makers of  
the McCormick get many of their  
ideas from the farmer and crystal-  
lize them into practical working  
mechanisms.  
You can O. K. the blots you get  
from the practical farmer—perhaps  
that's why the practical farmer  
O. K. the "Machine of Steel"—  
it's made to meet their needs.  
The McCormick Machine is indis-  
pensable to the farmer who requires  
harvesting machinery.

FRIDAY, AUGUST 18, 1893.

### In Summer.

O'er a hundred leagues of clover bloom  
And billows of waving corn,  
With her dewy tears sun-kissed to smiles,  
Comes the first breath of morn.  
Oh, the blossoming earth and the pearly sky,  
The cool, fresh scent of sweet things grow-  
ing!  
I'll not be more with life's how and why,  
Or the things that lie beyond my knowing.  
I am alive, in a world new-born,  
Here is no room for mourning;  
God's dawn overflows the eastern skies,  
And the wind blows straight from Para-  
dise,  
At four o'clock in the morning.

### GENERAL NOTES

Miss Agnes Knox, of St. Mary's, the talented Canadian elocutionist, was married on July 26, at Edinburgh, Scotland, to Mr. E. C. Black, a gentleman well known in literary circles there. Mr. and Mrs. Black will spend their honeymoon on the continent and will sail for Canada about the middle of September.

WINNIPEG, Aug. 12.—The Canadian Pacific will meet the Northern Pacific cut rate to the World's Fair. Beginning to-day, tickets to the World's Fair, good for thirty days, will be sold at the C. P. R. ticket offices named at the following rates: Winnipeg, \$27.70; Portage la Prairie, \$28.10; Brandon, \$30.05; Morris, \$26.05.

The fixing of seven World's Fair Directors at the rate of \$1,000 each for keeping the Exhibition gates open on Sunday July 23, is creating considerable interest. They violated an injunction and were declared guilty of contempt of court. This action of the Superior Court pleases the Sunday observance advocates immensely.

HAVERHILL, Aug. 9.—The first snow storm that visited Massachusetts in August for 46 years began Tuesday night and yesterday morning. Hail and lightning, were accompanied by snow and much damage was done. At Amesbury the whole country is covered with snow and drifts were a foot deep. The wind was terrific.

Nancy Hanks was given an exhibition mile in Buffalo on Aug. 3, in 2:10, her fastest time this year. She did the last quarter in 30 seconds, a two minute clip, and Doble feels confident his pet will lower her record before the end of the season.

Since August 12th, tickets have been sold from all stations in Manitoba, to Chicago and return, good for thirty days from the date of sale, as follows: From Brandon, \$30.05; Wawanesa, \$30.05; Balcarres, \$29.75; Miami, \$27.65; Portage la Prairie, \$28.10; Morris, \$26.05; Winnipeg, \$27.70; and good on all trains.

The total paid admissions to the World's Fair up to Aug 10 is 7,348,419. It will keep the Americans busy to beat the Paris Exhibition record of over 35,000,000. The largest attendance was during July, when 2,760,263 people passed through the gates. August promises to average 100,000 per day, exclusive of Sundays.

A gentleman of long experience in railroad building, who has just returned from a trip to the coast, says that the C.P.R. is doing a lot of solid work in the mountain section in straightening and improving the line. The rounded, guards, snow sheds, etc., will be put into the best possible condition, to insure greater speed in running trains and the greatest possible safety for all concerned.

PITTSBURGH, Aug. 11.—The nineteen banks in this city, comprising the Clearing House Association, to-day agreed that each bank should take \$50,000 of clearing house certificates or \$950,000 in all at seventy-five per cent. of the face value of the securities offered bearing interest at six per cent.

and 4 per cent. commission. The immediate result of this action will be to enable many banks to accommodate manufacturing concerns with large pay rolls who have experienced extraordinary difficulty since the middle of July in obtaining currency to pay its operations.

LONDON, Aug. 13.—One hundred and thirty-two thousand pounds in gold was withdrawn from the Bank of England to-day for shipment to the United States; 100,000 pounds in gold was also withdrawn from the bank for shipment to Canada. The Cunard steamer Etruria, which sailed to-day from Liverpool for New York, took the consignment of gold, amounting to 250,000 pounds.

R. and J. A. Turner, of Calgary, the well known horse breeders, are sending to the live-stock exhibition at the World's Fair two of their noted animals, prize winners at the Winnipeg Industrial exhibition. The names of the horses are "Balgrogan Hero," a Clydesdale, which won first prize three years in succession at the exhibition at Winnipeg, in the sweepstakes; and Hockney, a yearling which at the last summer fair won second prize in the "all age" stakes against many older animals.

Hon. Mr. Daly, Minister of the Interior, has made arrangements with N. F. Thompson, of the Dundee News, that two agriculturalists, one a farm laborer and the other a small tenant farmer which his paper is to send out from Scotland with ten other workmen to visit the World's Fair, shall visit Manitoba, the Territories and British Columbia, under the auspices of the Dominion government and the C.P.R. On their return they will visit the Agricultural districts of Ontario. The men chosen to visit this country are representative men of some education, elected by their fellows, and will furnish an account of their trip to the Dundee News, which has a weekly circulation of 220,000.

The report of the Superintendent of the Victoria Niagara Falls Park shows that the number of visitors to the park was 233,495, nearly 40,000 less than in 1891. The falling off was in carriage travel, which declined 36 per cent., while the number of visitors on foot increased nearly 24 per cent. The falling off in the use of carriages is another evidence of the decline of the hackman whose business will receive another blow from the competition of the electric railway. So far as the public are concerned the state of things on the Canadian side is now very satisfactory, and the arrangements are such as to reflect credit on the country. The park has been laid out with much skill and good taste. The tourist who sees the falls in that way and then travels by electric line and steamer to Toronto must receive a series of very favorable impressions of Ontario.

LONDON, Aug. 10.—The Mark Lane Express, in its weekly review of the British grain trade, says: "The British wheat crop is now estimated at 7,000,000 quarters. This leaves 21,000,000 quarters to be imported. Deducting the stock left over from 1892 there will be needed 19,000,000 quarters. It is not easy to see where this supply is to come from. It will absorb all the good crops of Russia, India and southeastern Europe to fill the British requirements. In the meantime foreign wheats are neglected. Manitoba is quoted at 28s 9d and California 29s 3d per quarter. English wheat is in quiet request at unchanged values. Corn is cheap. Old American sell at 21s and new American 6d less. Oats are dull and weak. Flour, barley, peas and beans are unchanged."

Perhaps the vital interest which Great Britain has in Siam was never more comprehensively yet directly put than in the following from the pen of Mr. Henry Norman, a well known journalist, who writes thus to The Times:

"A blockade," said he, "would deal a heavy blow at British commerce. Not a French private vessel would be stopped, but the Blue Funnel Line (Holt's) from Singapore, and the fine fleet of the Scottish-Oriental Steamship Com-

pany, trading between Hong Kong, Singapore and Bangkok, would be instantly laid up. The rice mills on the left bank of the Menam would have to shut down; they are owned almost without exception by British firms and Chinese British subjects. The same with the tea yards on the opposite side of the river."

The C. P. R. will run three harvest excursions from Ontario, Quebec and the Maritime provinces to Manitoba and the Northwest this autumn. These excursions will be run August 15 and 22, and September 5, from all stations on the Ontario and Quebec and eastern divisions, all stations on the Quebec Central, Erie and Huron, Central Ontario, Kingston and Pembroke, Canada Atlantic and Grand Trunk railways, and on August 14th and 21st, and September 4th, from all stations on the C.P.R. Atlantic division. Intercolonial, Prince Edward Island, and Windsor and Annapolis railways, at the following rates for the round trip: Deloraine, \$28; Nesbitt, \$28; Oxbow, \$28; Moosemin, \$28; Binscarth, \$28; Regina, \$30; Moose Jaw, \$30; Yorkton, \$30; Prince Albert, \$35; Calgary, \$35 and Edmonton, \$40. The tickets are colonist class, good for sixty days from date of issue.

The Alberta Railway and Coal Company has applied to the Governor-General in council for approval of the lease and sale of the road extending from Dunmore to Lethbridge to the C. P. R. Co., and of the agreement for the lease and sale made between these companies pursuant to the "Act respecting the Alberta Railway and Coal Company," passed at last session. The Alberta Co. is to widen its line to standard gauge. It is no doubt the intention of the C. P. R. Co. to extend the line from Lethbridge to MacLeod, where it will connect with the southern extension of the Calgary and Edmonton line from which point a portion of the line has already been built west towards the Crow's Nest Pass in the Rockies. Next year will probably see the line extended through the pass into B.C. Two engineering parties are now at work on the route. It is expected the line after leaving the pass will probably cross Peavine Prairie and run down Mitchell creek to Mitchell creek, and down the creek to Elk river, thence down Elk river to the Kootenay, crossing the latter below the mouth of the Moyie, thence up the Moyie and over the divide to Goat river, thence down Goat River to its mouth, thence across the Kootenay and up the west shore of the Kootenay lake to Nelson.

### A Change of Name.

TORONTO, June 19.—The announcement has just been made of an important business change in this city, which will be noted with interest throughout the Dominion. The business of Dr. L. A. Smith & Co., manufacturers of Dadds Kidney Pills, Anti-Dandruff and other preparations, will in future be conducted by a company to be known as the Dadds Medicine Company, Ltd. There is no change in the management, but the formation of the company was deemed necessary and advisable because of the enormous

EDIE MEDICAL CO., Buffalo, N.Y.

increase of business, and the new name was chosen to identify the company with its most popular remedy, Dadds' Kidney Pills.

The company has found it necessary to enlarge its premises and to build a large shipping warehouse, to accommodate the additions to its working staff and to give increased facilities for shipping. Orders for Dadds' Kidney Pills are pouring in daily from all parts of Canada and the United States and the company finds it difficult to keep up the supply equal to the demand.

are unknown to many thousands in the world's grand army of toilers. It's because so few of them labor with their hands as well as with their heads. Thinking pays; ideas are so much capital.

What are your ideas about grass-cutting? You've heard about

### The McCormick No. 4 Steel Mower

It's an ideal machine. There are more good ideas about its construction than can be found in any other mower. Probably that's why its sales are so enormous. It has the best foot-life to be found on any mower; is fitted with the McCormick cold rolled finger bar, and will stand the severest tests possible to a grass-cutter. Guaranteed to work where others fail.

It's a light draft mower, and it's durable. It's an easy winner of field trials. It's a really valuable mower in more ways than can be enumerated here—and it costs but little more than a "cheap" machine.

The Illustrated McCormick Catalogue shows the special merits of this mower. We furnish it free to our agents.

#### LOCAL AND GENERAL NEWS.

Read O. Field's advt.

School opened on Monday.

Ducks and plover are plentiful on the river.

Remember I. M. Chalmers' great clearing sale.

Mr. W. J. Lascella, of Qu'Appelle, spent Sunday in town.

Dr. Lafferty, of Calgary, was in town on Wednesday.

Mr. H. Macdonald, of Battleford, is visiting his brother of this place.

The heavy rain storm of Tuesday will do considerable good to the late crops.

The brick work of Mr. T. W. Robinson's new business block is nearly completed.

Messrs. W. T. Barrett and A. Smith have imported from the west, four well bred setter puppies.

Mr. Boyd, of Carberry, is spending a few weeks with his daughter Mrs. J. T. Simpson, of this place.

Mr. J. T. Simpson has neatly painted and fixed up his dwelling on River St., east.

Mr. McCallum, general agent of the Massey-Harris Co., was in town on Saturday last.

Mr. W. J. Gould, photographer, and family left for Swift Current, on Tuesday evening.

Mrs. Paul Ostrander is spending a few days visiting friends at Spring Bank farm.

TO LET—Two comfortable furnished rooms. First-class board. Terms reasonable. Apply at the Times office.

Principal J. A. Calder, who has been visiting friends in Winnipeg, returned home on Saturday last.

Mr. R. W. Timmins is making preparations for the erection of a new blacksmith shop.

Mr. J. S. Macdonald, train dispatcher of the C.P.R., at Medicine Hat, was in town yesterday.

Hon. Messrs. Foster and Angers, of the Dominion Cabinet, are expected to visit Manitoba and the North-west this fall.

WANTED—A good laundress. Highest wages paid. Apply to

A. SMITH, C.P.R. Dining Hall.

Mr. John Rutherford, train dispatcher of the C.P.R., at Moose Jaw, is in the city for a few days, the guest of his brother, W. Rutherford, of the C.P.R. telegraph—Winnipeg Tribune.

The Royal Templars of Temperance will hold their annual picnic in Annable's grove, on Thursday next.

Tuesday's No. 2 arrived at this point ten hours late owing to the burning of a bridge two miles west of Portage la Prairie.

D. A. Stewart, chief engineer of the western division of the C.P.R., is here in connection with the building of the Soo line.

Dr. P. F. Size, Surgeon Dentist, will visit Moose Jaw, on the 23 and 24 of August, instead of the usual date. See advt. (ADVT.)

Miss Louise Hannah who has been spending a few weeks with friends in Calgary, returned home on Sunday last.

Rev. Mr. Williams, of Carberry, preached two very impressive sermons, in the Church of England, on Sunday last.

Mr. and Mrs. S. McDiarmid who have been spending a few weeks with friends in Winnipeg, returned home on Wednesday evening.

Farmers needing binder twine will do well to call and inspect our stock and compare prices.

E. A. BAKER & CO.

Mr. Stanley Virtue, who has been clerking in T. W. Robinson's of late, left for his home in the east, on Wednesday last.

The members of the Christian Endeavor of the Methodist Church will hold their annual picnic in Annable's grove, on Sept. 1st, weather permitting.

The Bishop of Qu'Appelle will hold confirmation services in Medicine Hat, on Sunday the 20th inst. This will be Bishop Burns' first visit to Medicine Hat.

A large list of names of members of the R. T. of T's, will be handed in to the Select Councilor, at their next meeting, to be dealt with for their deeds in the past few weeks.

Mr. G. A. Mitchell's gang who have put in the neighborhood of thirty telephones in town, left for the east on Saturday last. The new line is giving every satisfaction.

Miss Dickie, the new teacher for the Junior department of the public school, will commence her duties for the ensuing year, on Monday, August 28th. Principal Calder is now taking charge of her department.

A public gathering will be held on Wednesday evening, 23 inst., at 20 o'clock, in the Town Hall, under the auspices of the W. C. T. U., of Moose Jaw. The programme will consist of songs, recitations and addresses. All are cordially invited to attend.

The Christian Conference, announced in last week's issue to take place in Russell Hall, is now in session. Up to going to press we have been unable to secure the names of the visiting delegates. A full account will appear in next week's issue.

Already the Soo is making arrangements for the inauguration of its through train service to the Pacific coast. Tickets are being printed, advertising matter is being issued, the time tables are being arranged, and it is only a matter of about four more weeks until trains will be leaving this point en-route for St. Paul.

Mr. Chas. Johnson, who was brought in from Wood Mountain a few weeks ago owing to sickness of pleurisy, and placed under doctors care at the residence of Mrs. W. A. McFall. After an examination of Dr. Turnbull and Lafferty, on Wednesday, he was taken to the Medicine Hat hospital to undergo an operation.

On Tuesday evening last two young men drove up to one of our town hotels and tied their team to the tie post, while they went in to have a social glass—the social glass resulted in one

calls two, two calls four, etc., until both parties were well under the influence of liquor.—Deeming it time to start for their destination they scrambled to the tie post, after a lengthy debate as to which of the three posts the team had been tied to they decided it was gone, and they retired for the night.—(Some boys, being fond of a joke, had driven the team to the C.P.R. freight sheds and tied it to the fence.)—On Wednesday morning they hired a lively rig and drove throughout the immediate country, enquiring of settlers if they had seen anything of a runaway team. Upon their return they found the rig and team facing well at one of the town feed stables. What a "Sharp" trick says one, I'll "Smile" the son-of-a-gun if I find him out said the other.

Mr. James Chalmers who left here en route for Scotland, on June 2nd, returned home on Sunday last, looking much the better of his trip. Mr. Chalmers sailed from New York, on June 8th, on board the "State of California," which had on board over five hundred passengers, of which over one half were saloon passengers. On the night of June 18th the vessel approached the mouth of the Clyde, and at one o'clock a.m., nearly every passenger was on deck viewing the beautiful scenery along its banks, by twilight, arriving at Glasgow on the morning of the 19th. Mr. Chalmers visited many flourishing cities in his native land, and crossed over two of the largest bridges in the world, they being erected over the Firth of Forth and Firth of Tay rivers. He sailed from Glasgow on board the same steamer, on July 30th, and, when about thirty mile from New York they picked up two frenchmen in an open boat, they were fishermen who had lost their schooner in a dense fog, both were nearly exhausted, having been on the water two days and nights without eatables. Mr. Chalmers speaks in glowing words of the amount of business transacted in Scotland, and the cheapness of goods, he says, it far exceeded his expectations.

#### To Be Proceeded With.

General Superintendent Whyte is in receipt of definite instructions to proceed with the erection of an accumulating and sorting elevator at Winnipeg. Plans are already in preparation, and work of construction will be commenced at an early date. It will be located in the western yard, in the vicinity of the exhibition grounds and will be a

## NOTICE.

THE following is a summary of the Regulations with respect to the manner of recording claims for MINERAL LANDS other than Coal Lands, and the conditions governing the purchase of the same.

Any person may explore vacant Dominion Lands not appropriated or reserved by Government for other purposes, and may search therein, either by surface or subterranean prospecting, for mineral deposits, with a view to obtaining a mining location for the same, but no mining location shall be granted until actual discovery has been made of the vein, lode, or deposit of mineral or metal within the limits of the location of claim.

A location for mining, except for Iron or Petroleum, shall not be more than 1,500 feet in length, nor more than 600 feet in breadth.

A location for mining Iron or Petroleum shall not exceed 160 acres in area. On discovering a mineral deposit any person may obtain a mining location, upon making out his location on the ground in accordance with the regulations on that behalf, and filing with the Agent of the Dominion Land for the district, within sixty days from discovery, an affidavit in form prescribed by Mining Regulations, and paying at the same time an office fee of five dollars, which will entitle the person so recording his claim to enter into possession of the location applied for.

At any time before the expiration of five years from the date of recording his claim, the claimant may, upon filing with the Local Agent that he has expended \$500 in actual mining operations on the claim, by paying to the Local Agent therefor \$5 per acre, cash, and a further sum of fifty dollars to cover the cost of survey, obtain a patent for said claim, as provided in the said Mining Regulations.

Copies of the Regulations may be obtained upon application to the Department of the Interior.

A. M. BURGESS, Deputy of the Minister of the Interior, Department of the Interior, Ottawa, July 1893.

THE

Homestead Regulations.

All even-numbered sections of Dominion Lands in Manitoba or the North-West Territories, except 8 and 26, which have been homesteaded, reserved to provide wood lots for settlers, or other purposes, may be homesteaded by any person who is sole head of a family, or male over eighteen years of age, to the extent of one quarter section of 160 acres, more or less.

ENTRY.

Entry may be made personally at the local land office in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for some one to make entry for him. A fee of \$10 is charged for an ordinary homestead entry; but for lands which have been occupied an additional fee of \$10 is chargeable to meet inspection and cancellation expenses.

ECONOMY DUTIES.

Under the present law homestead duties may be performed in three ways, and on making application for entry the settler must declare under which of the following conditions he elects to hold his land:—

1. Three years' cultivation and residence during which period the settler may not be absent for more than three months in any one year without forfeiting the entry.

2. Residence for two years and nine months anywhere within two miles of the homesteaded quarter section, and afterwards actual residence in a habitable house upon the homesteaded for three months prior to application for patent. Under this system 10 acres must be broken the first year after entry, 15 additional in the second, and 15 in the third year; 10 acres to be in crop the second year and 25 acres the third year.

3. The five years' system under which a settler may reside anywhere for the first two years (but must perfect his entry by commencing cultivation within six months after the date of entry) breaking five acres the first year, cropping those 5 acres and breaking 10 acres additional the second year, and also building a habitable house before the end of the second year. The settler must commence actual residence on the homestead at the expiration of two years from the date of entry, and thereafter reside upon and cultivate his homestead for at least six months in each of the three next succeeding years.

may be made before the local agent, or any homestead inspector. Before making application for Patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, or the Commissioner of the Interior, Ottawa, of his intention to do so. When, for convenience of the settler application for patent is made before a homestead inspector, a fee of \$5 is chargeable.

SECOND HOMESTEAD

may be taken by anyone who has received a homestead patent or a certificate of recommendation countersigned by the Commissioner of Dominion Lands upon application for patent made by him, or his agent, title to his first homestead on, or prior to the second day of June, 1890.

INFORMATION.

Full information respecting the land, timber, coal or mineral lands, and copies of these Regulations, as well as those respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Dominion Lands, Winnipeg, Manitoba; or to any of the Dominion Lands Agents in Manitoba or the North-West Territories.

A. M. BURGESS, Dep. Min. of the Interior.
